SPRING HOUSE-CLEANING SEASON Is here, and it is of sanitary importance as well as for the beautiful effect, that it is necessary for the smoke and grime of the winter season to be removed. Nothing so satisfactorily accomplishes this as a thorough renovation, as to the walls and ceilings of the family residence or office. To those thus preparing to beautify their homes

NEWTON'S LINE OF WALL-PAPER This year affords extraordinary advantages for improving and decorating in this direction. The stock is much larger than has ever before been brought to North Platte, and embraces styles from the simplest and cheapest, to the most elaborate and costly. In keeping with the times, the prices are lower than the same quality of goods were ever before offered. He has papers which will fit the requirements of every pocket book, from those resembling the lean and hungry line mentioned in the Bible, to the bulging purse of the millionaire. Call and examine the stock, and prices, as a particular pleasure will be taken in exhibiting the same to the public, as a personal inspection will go a long way toward making a purchase. Don't forget the place, at Newton's Book Store.

Leech recently shipped a car of nineteen horses to Chicago, which he sold on the city market, realizing but \$2.08 per head above expenses. R. last Friday, it was stated that past department commander Church had joined the order at the state encampment. This was an error, as Judge Church had passed away prior to the holding of the encampment. It should have read "department commander Church Howe." —The annual meeting of the mutual building and loan association Saturday evening was well attended, and the statement presented to the stockholders gave excellent satisfaction. The old board of directors, with the exception of C. H. Monagan, were re-elected. John Sorenson being elected to fill Mr. Monagan's place. The directors in turn re-elected the old officers. The business of the local association is nearly twice as large as any other similar association in the state, the assets now reaching the sum of \$231,703.40.

Mr. and Mrs. Ferguson left for Farmington this morning to attend the funeral. —Saturday and Sunday were lucky days for local sportsmen and several hundred ducks and geese were brought in by nimrods. Quite a number of Omaha sportsmen are camped along the river between here and Ogalalla, and they are said to be killing wagon loads of the fowls. —Messrs. Laing, Moran, Jeffers, Friend, Park, Ell. Cox, Hainline and Murray made a run to Gothenburg Sunday. By wagon road the distance is forty-eight miles, and the boys made the run in about three hours and a half. Master Ed Park, who was a member of the party, stayed right with the older bykers. A number of the boys will make a century run next Sunday. —The S. A. Douglas Woman's Relief Corps entertainment to be held at Lloyd's opera house Thursday evening, April 18th, 1895, will consist of "speaking tableaux" and several new and original features. Dancing will be a special order during the later part of the evening, and refreshments will be served. Every one is invited to come and assist a good cause. Hutton, of Paxton, was in town Monday with a view of getting some of our citizens to join a colony which he expects to locate in the Big Horn Basin of Wyoming. There are plenty streams to feed irrigating ditches, and already several of the latter are under construction. The Captain and three or four of his sons will be members of the proposed colony. —E. W. Crane returned Saturday from Iowa and Missouri, where he had been soliciting seed grain and feed for the farmers. He had had indifferent success, for he found those states full of men on errands similar to his, many of whom had preceded him and succeeded in soliciting about all the people could afford to donate. Mr. Crane secured nearly a car of grain, but when he applied for free shipment he was told by a representative of the B. & M. that unless the seed was distributed along its line in this country free transportation could not be furnished. As this seed was intended to be distributed among the farmers in this section, it precluded the possibility of securing a free rate. It was then decided to sell the grain collected and send the proceeds to Mr. Crane in this city.

It is expected that business men from Sidney, Chappell, Lodge Pole and Ogalalla will be present. Not in years has a legislative measure aroused such indignation as has this bill as now formed; and if Senator Akers and Representative Harris desire to honestly carry out the wishes of their constituents they must work earnestly to have section 2034 stricken out or modified. A Correction. Ed. TRIBUNE.—In the last issue of your valuable paper you had a notice of the organization of Circle No. 20 of the Ladies of the G. A. No person can be a part of the Grand Army of the Republic unless he is an honorably discharged soldier or sailor of the Union army or navy. The only women's organization that is recognized by the Grand Army of the Republic as an auxiliary thereto, is the Women's Relief Corps. The Ladies of the G. A. R. is not auxiliary to, but independent of the G. A. R. Respectfully, OLD SOLDIER.

The farmers of Peckham organized in Lincoln county have organized an association, of which each member pays in three dollars which goes towards paying expenses of two persons who are sent back east to solicit feed and seed for the destitute of their precinct. A man who lives over in the west part of town, says the Albion Argus, went into his cow stable the other night and by mistake mixed the gentle kine up a nice mash in a box full of sawdust instead of bran. The cow merely supposed the hard times were the cause of the economy, meekly ate her supper, and the man never discovered his mistake until the next morning, when he milked the cow and she let down half a gallon of turpentine, a quart of shoe pegs and a bundle of latih.

Blood Poison THE BANE OF HUMAN LIFE, Driven Out of the System by the Use of Ayer's Sarsaparilla. "For five years, I was a great sufferer from a most persistent blood disease, none of the various medicines I took being of any help whatever. Hoping that change of climate would benefit me, I went to Cuba, to Florida, and then to Saratoga Springs, where I remained some time drinking the waters. But all was to no use. At last, being advised by several friends to try Ayer's Sarsaparilla, I began taking it, and very soon favorable results were manifest. Today I consider myself a perfectly healthy man, with a good appetite and not the least trace of my former complaint. To all my friends, and especially young men like myself, I recommend Ayer's Sarsaparilla, in need of a perfectly reliable blood-purifier."—JOS. A.
